

Waterbury Cemetery Commission

December 1, 2015 meeting minutes

4 pm - Steele Block conference room

Present: Barbara Walton, Betty Jones, Jack Carter

Chad Ummel

November 3rd minutes - accepted

Hope Cemetery - Barb, Jack and Chad have finished inventory of the stones in Section B. That makes Sections A, B and D finished. They will continue into Section C this year as long as the weather cooperates.

Tree works has been done. Removal of trees in Sections X and B and trimming of cedars in Section C, etc. make a much better appearance to the cemetery.

It would be helpful if we could get the cemetery book so that it could be copied and as an additional reference. There were concerns expressed that there is only one copy of the book. Chad has made copy of the Maple Street Cemetery book.

Superintendent's Report - Chad stated that equipment in the Maple Street and Old Center cemeteries has been winterized and stored in the sheds on site. The Town removed the trash container at Maple Street on July 1 because of the new State recycling regulations. People have been leaving trash around and he has been picking it up on his own. We encourage the Town not to let that happen in 2016. It was mentioned that a compost area be created for dead vegetation – perhaps in the back.

Meeting adjourned at 4:40 pm. Next meeting - January 5, 2016

Respectfully submitted,

Jack Carter
